**Notes to Editors**

The Company has, through successive licence applications and acquisitions, built a substantial, diversified portfolio of exploration, appraisal, development and production assets across the Atlantic margin, the UK and Norwegian North Sea, Norwegian Sea, Barents Sea and offshore Iceland. Faroe Petroleum has extensive experience working with major and independent oil companies and its joint venture partners include BP, Centrica, DONG, E.ON Ruhrgas, GDF, OMV, Repsol, RWE Dea, Statoil and Wintershall.

The Company's licence portfolio provides considerable spread of risk and reward, encompassing some 60 licences. Faroe has a very active drilling programme ahead and it currently has interests in four principal producing oil and gas fields in the UK and Norway, including interests in the Blane oil field in the UK, and interests in the producing Njord, Brage and Ringhorne East fields in Norway, which collectively produced on average 7,200 boepd (economic production) in 2012.

Faroe announced in January 2013 a significant discovery in the Rodriguez prospect located on the Halten Terrace, in the Norwegian Sea. The discovery was made in the Lower Cretaceous.

Norway operates a tax efficient system which encourages exploration, through reimbursement of 78% of costs in the subsequent year.

## **Faroe Petroleum**

Faroe Petroleum is quoted on the AIM Market of London Stock Exchange plc with offices in Aberdeen, Stavanger, London and Torshavn. The Company is well financed from a strong cash reserve, excellent cash flow and largely undrawn \$250m borrowing base facility, with a fully funded drilling programme in 2013 and beyond. Faroe has highly experienced technical teams who are leaders in the areas of seismic and geological interpretation, reservoir engineering and field development, focused on creating exceptional value for its shareholders.
